APPLY FOR THESE PERMANENT POSITIONS AT SASOL IN SECUNDA AND SEE YOUR FUTURE TAKE SHAPE

Miner

This job will see you take ownership for process optimisation by means of careful planning, organising and controlling of the day-to-day operations. This will include:

- Ensuring targets are met
- Improving performance and reducing costs
- Ensuring the team adheres to standard operating procedures
- Providing a safe and healthy working environment
- Building, guiding and developing team capabilities
- Conducting section inspections.

You must have:

- Grade 12 / N3 with Mathematics AND English/Business English
- A valid Blasting and First Aid Certificate, as well as valid Red Ticket (or the ability to obtain one)
- 2-4 years' experience gained in underground coal mining
- A valid driver's licence
- Knowledge of the Occupational Health, Safety and Environment Act. **(Ref: 13482)**

Boilermaker

In this role, you will manage the maintenance process to enable mining teams to reach production targets and:

- Deliver products and service according to client requirements
- Maintain a healthy and safe working environment
- Assist with fault-finding on job-related equipment
- Perform PTO and risk assessments on work completed
- Provide on-the-job training and coaching to learners and trainee employees.

You must have:

- Grade 12 / N3 (with Mathematics AND Science AND English/Business English)
- NQF4 Trade Test (Boilermaker Phase 1-4)
- Valid Gas Testing Certificate, as well as valid Red Ticket (or the ability to obtain one)
- At least 2 years' experience as a Boilermaker
- A valid driver's licence
- Experience in the maintenance, refurbishing and manufacturing of mining equipment
- Knowledge of the Occupational Health, Safety and Environment Act and HIRAC training. **(Ref: 13484)**

Artisan: Electro Mechanic

As part of the Maintenance team, you will:

- Assist mining teams in obtaining their production targets through management and maintenance of processes
- Take ownership of equipment
- Ensure safety and risk standards are met
- Ensure all standard operating procedures, as well as ISO standards are adhered to
- Ensure maximum availability and reliability of equipment
- Provide guidance and training in complex equipment repairs.

You must have:

- Grade 12 / N3 (with Mathematics AND Science AND English/Business English)
- NQF4 Trade test (Electro Mechanic)
- PLC experience
- A valid Flameproof, Gas Testing and First Aid Certificate, as well as valid Red Ticket (or the ability to obtain one)
- 2-5 years' experience as a qualified Electro Mechanic. **(Ref: 13481)**

Artisan/Senior Artisan: Diesel Mechanic

In this role, you will:

- Deliver products and service in accordance with customer requirements
- Maintain a healthy and safe work environment
- Maintain mining equipment
- Liaise with Service Provider using the equipment
- Be on standby
- Perform fault finding on Diesel equipment
- Train operators and hired labour
- Manage a fleet of Diesel Machinery, tractors, LHD's.

You will need:

- Grade 12 / N3 (with Mathematics AND Science AND English/Business English)
- An NQF4 Diesel Mechanic Trade Test
- Valid driver's license
- Flameproof and Gas Testing Certificate
- 2-5 years' experience as a qualified Diesel Mechanic
- Mining equipment experience (Diesel Machinery, tractors, LHD's)
- The ability to read and interpret engineering drawings. **(Ref: 13483)**
