

“I’m proud to be a student on UCT Financial Aid.”

Masibulele Tyobeka – *BSocSci in Organisational Psychology*

I’m in my second year of **Organisational Psychology**, with the help of **Financial Aid**. From Khayelitsha township, my widowed mum has already sacrificed a lot to give me opportunities that I wouldn’t otherwise have had, but she couldn’t afford to pay for my tuition fees.

With the allowances that I’ve received from UCT, I’ve been able to study at one of the ‘greatest universities in South Africa, so the aid has greatly increased my chances of getting my dream job. **I’m very proud to be a student on Financial Aid – without it, I wouldn’t be where I am today.**

“On my way to achieving my goal.”

Zayaan Farouk – BA in Fine Arts

I’m in my third year of studying Fine Arts, with the goal of becoming a graphic designer – something that I’d like to go on to teach. **Without Financial Aid from UCT I wouldn’t have been able to pursue this degree.** I receive a grant, and a

travel allowance that enables me to get to and from the campus, in addition to access to the Wellness Centre, which has helped me, too. Also with a book allowance, **UCT Financial Aid has helped me so much on my way to achieving my dream.**

“I have all the support I need.”

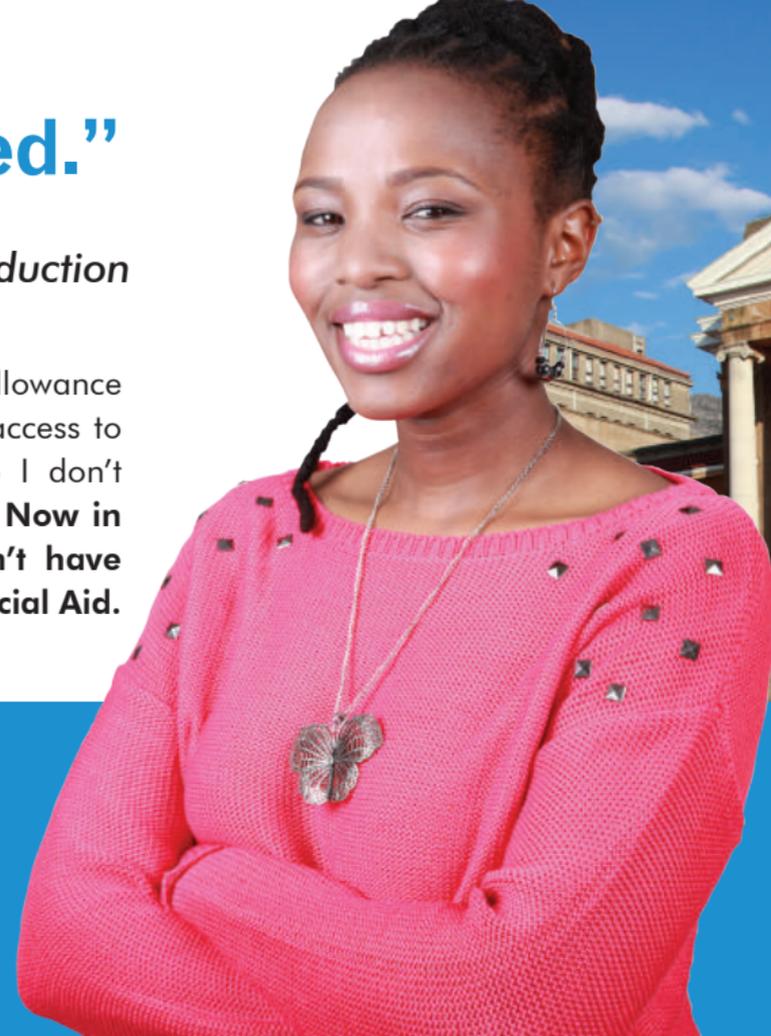

Noluyolo Ngomani – *BA in Film and Media Production*

My mom is a single parent and I wasn't sure she could afford my university fees, so when I heard about UCT Financial Aid, I immediately applied. **It's helped me in so many ways.** It pays my

fees and I get a monthly allowance to buy books, as well as access to the Wellness Centre – so I don't have to worry if I get sick. **Now in my final year, I wouldn't have got this far without Financial Aid.**

“UCT Financial Aid is helping me realise my ambitions.”

Mzoxolo Sitoto – *BSocSci in Politics and Social Anthropology*

I was raised by my mom and my dad left when I was doing grade 8. My dad’s a cleaner at UCT and would talk about how good it is and encourage me to study, but I didn’t think I’d be able to go to university, because it’s so expensive. My dream is to become a lawyer, perhaps

a high court judge – I see people on TV wearing those gowns and want to be like them, and I think my personality fits the job – I’m a talkative person, a problem-solver. **Receiving allowances from UCT has helped me on the way to realising these ambitions.**

“Without it, I wouldn’t be where I am today.”

Mpho Gegana – BSc (Hons) Geographic Information Systems

Financial Aid has made a very significant impact on my life – because of it, I’m a UCT graduate and the first in my family to study, which is a dream come true. It covered all of my UCT fees throughout my degree and helped with paying for accommodation, food, tuition and books, plus I was able

to save some of the money for vacation periods. Originally from Limpopo and the firstborn in my family, **I come from a place with limited role models, so I hope to inspire my siblings with what I’ve achieved.** Without Financial Aid, I wouldn’t be where I am today.
